

**PROGRAM OF THE VIRTUAL
SYMPOSIUM ON MARINE POLLUTION**

UNIVERSIDAD
DE GRANADA

Thursday, June 18

Time	Track	Title
09:00 – 09:15	Opening Session	Opening Session including Dean and Organizing Committee Talk
09:15 – 10:00	Plenary Session	Pending title. Ministry for Ecological Transition and Demographic Challenge.
10:00 – 12:00	Oral Abstracts Session	
	Topic 1	<i>Kuprijanov, Ivan</i> : Assessment of the eastern Gulf of Finland (Baltic Sea) for contamination by hazardous substances: data assembling and modelling of the potential distribution.
	Topic 2	<i>Suaría, Giuseppe</i> : A global characterization of textile fibers in oceanic surface waters.
	Topic 3	<i>Bermudez, María</i> : Idealized modelling of the transport of microplastics in the Ria of Vigo.
	Topic 3	<i>Godoy, Verónica</i> : Microplastics as transporters of chromium and lead during dynamic simulation of the human gastrointestinal tract.
	Topic 3	<i>Ibáñez, María Eugenia</i> : Assessing the combination of peroxymonosulfate salt with ozonation for seawater disinfection.
	Topic 3	<i>Rivas-Zaballos, Ignacio</i> : Effect of UV-C irradiation and dark post-treatment period on ballast water microalgae disinfection.
	Topic 3	<i>Muñoz-Batista, Mario</i> : Degradation of polymeric materials. Opportunities in Photocatalysis.
	Key Note	<i>Sturm, Michael</i> : Novel method for removal of microplastics from sea water using organosilanes.
12:00 – 12:30	Break	
12:30 – 13:30	Posters Session	
	Topic 1	<i>Caçador, Isabel</i> : <i>Spartina patens</i> bioinvasion impacts on metal speciation and bioavailability in Mediterranean marshes.
	Topic 2	<i>Valente, Tommaso</i> : Preliminary investigation on the suitability of elasmobranchs for monitoring macro-litter ingestion in deep-sea.
	Topic 3	<i>Lozano, Emilio</i> : New products from non-recyclable plastics from municipal solid waste. Life4Film and LifePlasMix projects.
	Topic 4	<i>Godoy, Verónica</i> : Fibers contamination near a marina and wastewater effluent release in Douro river, Portugal.
	Topic 5	<i>Kuprijanov, Ivan</i> : Application of embryo malformations in amphipods to test marine sediments in the Gulf of Finland (Baltic Sea).
	Topic 5	<i>Santos-Echeandia, Juan</i> : The aquatic plant <i>Cymodocea nodosa</i> as a tracer of trace metal anthropogenic inputs to the Mar Menor coastal lagoon (SE Spain).

**PROGRAM OF THE VIRTUAL
SYMPOSIUM ON MARINE POLLUTION**

UNIVERSIDAD
DE GRANADA

Friday, June 19

Time	Track	Title
09:00 – 10:00	Plenary Session	Pending title.
10:00 – 12:00	Oral Abstracts Session	
	Topic 4	<i>Rojo, Dolores</i> : Presence and characterization of microplastics in gilthead (<i>Sparus aurata</i>) of the Mar Menor (Murcia).
	Topic 4	<i>Rojo, Dolores</i> : Microplastics in coastal sediments of the Mar Menor, protected coastal area of the Region of Murcia.
	Topic 4	<i>Piarulli, Stefania</i> : Temporal dynamics of mussel-mediated fluxes of microplastics.
	Topic 4	<i>Santos-Echeandia, Juan</i> : Interaction of mercury with beached plastics with special attention to zonation, degradation status and polymer type.
	Topic 7	<i>Romero-Martinez, Leonardo</i> : Combination of UV-C irradiation with hydrogen peroxide or persulfate for phytoplankton removal in ballast water.
	Topic 8	<i>Moreno-Andres, Javier</i> : Ballast Water Management Convention: Challenges derived from a global threat for ocean's health.
	Topic 8	<i>Rojas, Fatima</i> : From Plastic Sea to Mediterranean Sea: REINWASTE Project contribution to reduce plastic marine pollution.
	Topic 8	<i>Sáez, Paula</i> : From maritime rescue to 2020 Strategy: two actions to protect the environment.
12:00 – 12:30	Break	
12:30 – 13:30	Plenary Session	Pending title. PlasticsEurope.
